

Diamond Elite Parking Sign

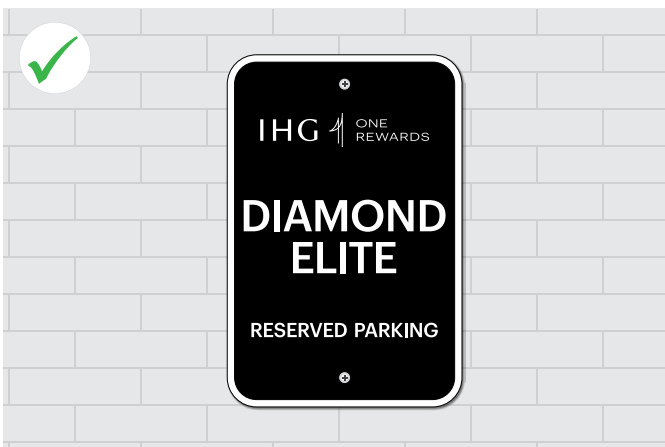

INSTALLATION CHECKLIST

Please review this list before installing your signs to ensure you are meeting IHG guidelines.

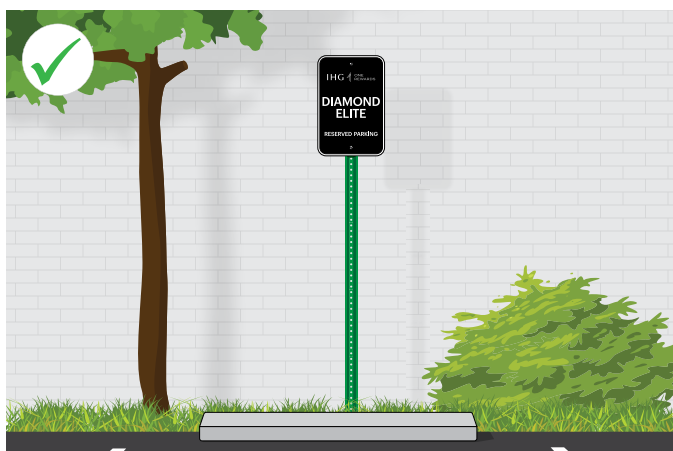

☐ Sign(s) is completely visible

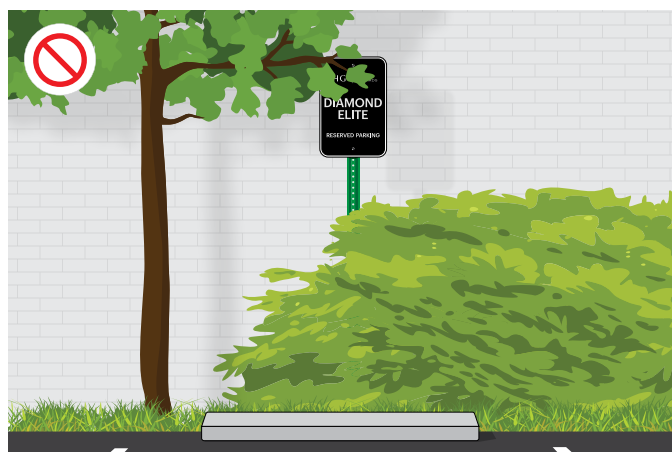

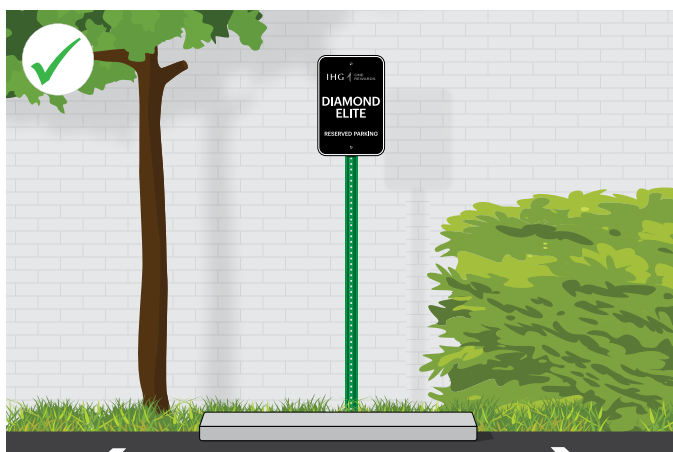

☐ Sign(s) is properly installed

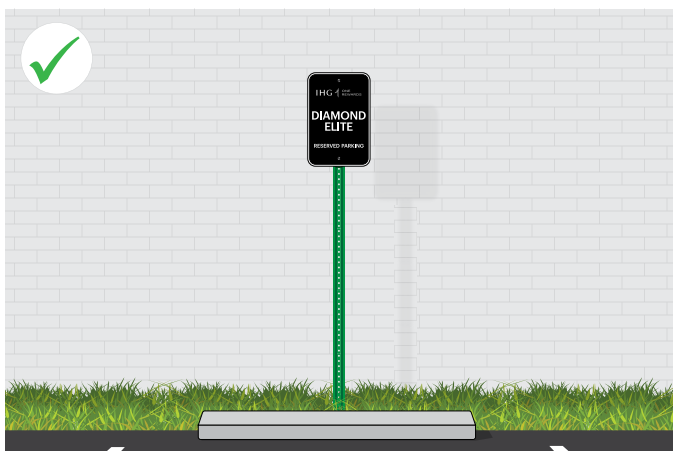

☐ Sign(s) is installed on a post or base when there is any landscaping space available for installation

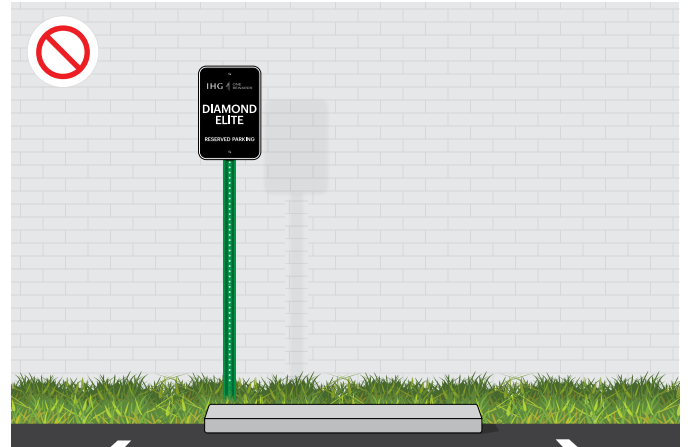

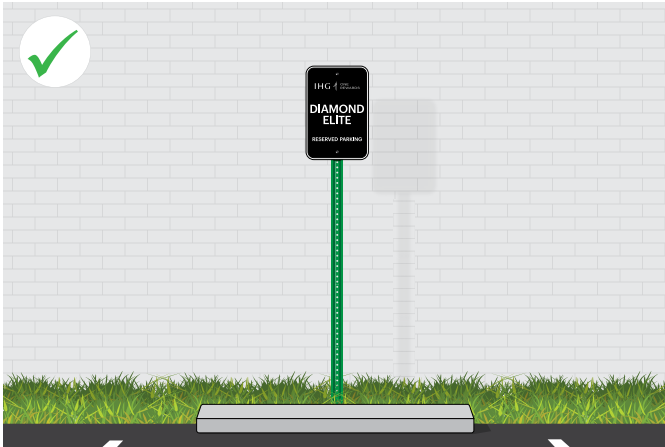

☐ When needed, trim trees and shrubbery so that it does not interfere with visibility of the parking signage

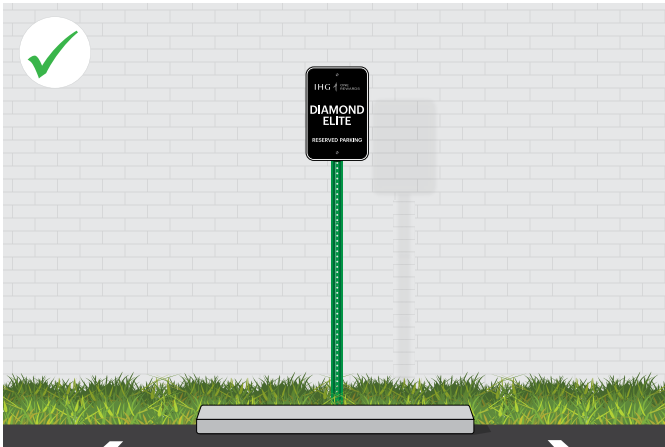

☐ Sign(s) is installed in a parking area

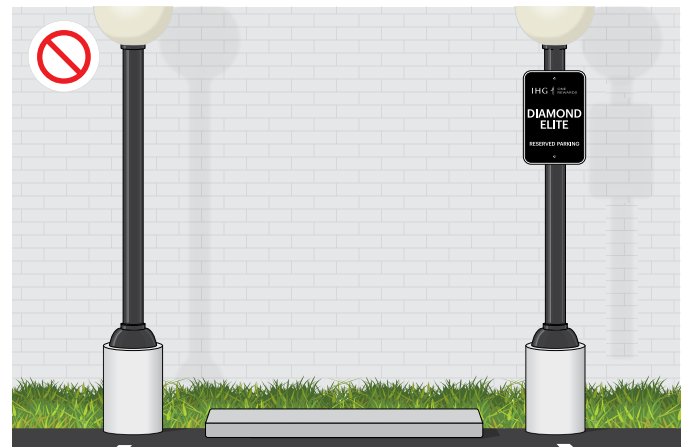

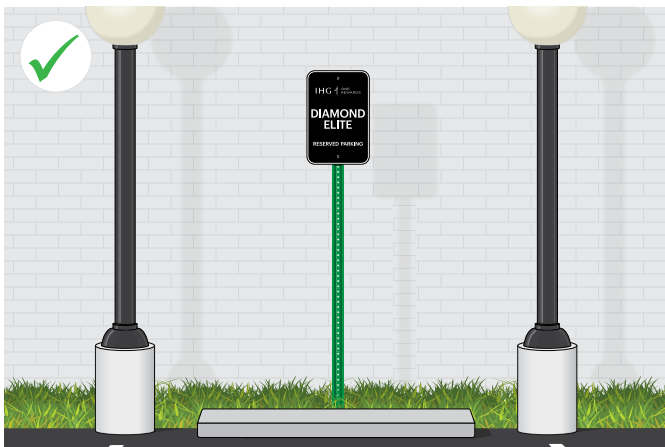

☐ Sign(s) is centered in front of the parking spot

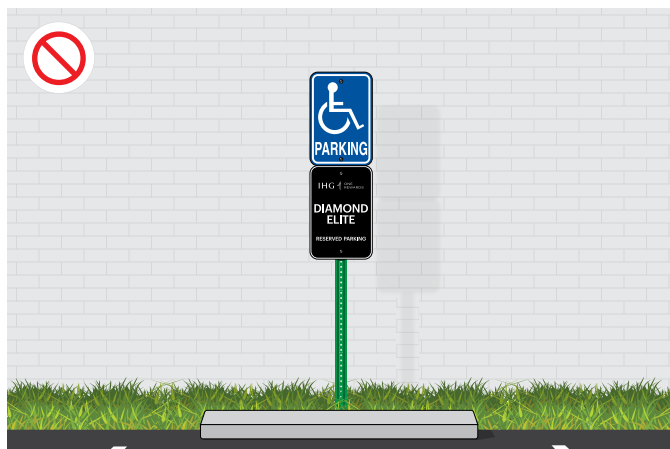

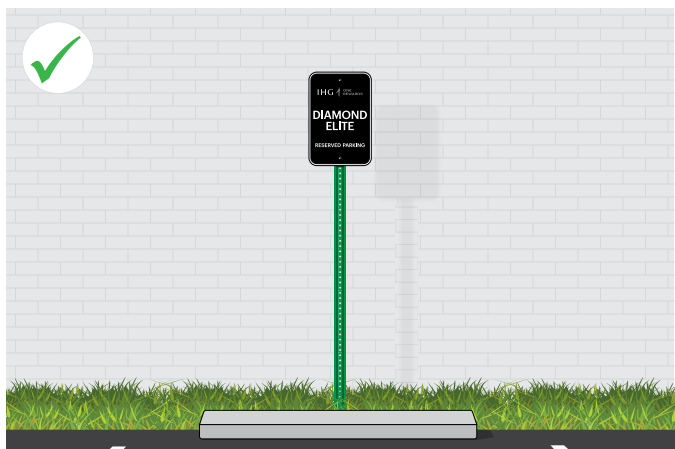

☐ Sign(s) is installed at the top of the post or base

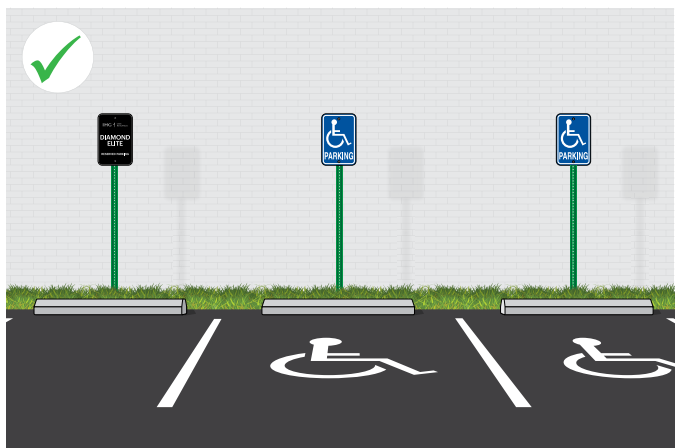

☐ Sign(s) is only mounted to a dedicated sign post or base, or wall directly in front of the parking space

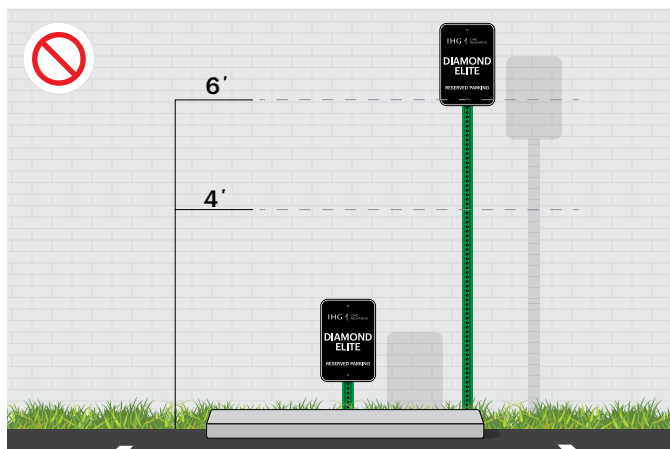

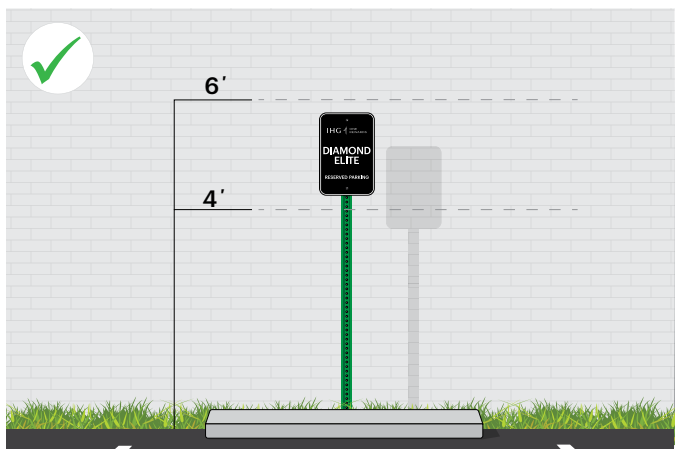

☐ Sign(s) is not mounted to an existing post with other signage*

* Do not remove existing handicap accessible parking spaces. Instead add Diamond Elite parking signs to the next best available spaces.

☐ Overall post or base height is between 4' to 6' high

☐ Sign(s) is between 4' to 6' high if mounted on a wall in a parking garage
